In the morning session on 14 June, N. M. Krotskiy, secretary of the Chita Oblast Party Committee, reported on the results of the Party education program in the past school year. He stated that the majority of Communists in the oblast were included in the Party training program.

The training program however, is not being carried out successfully in Party political schools. As of 1 June, only 196 of the 534 oblast Party political schools had completed the necessary work. Korkin, secretary of the Chita Oblast Committee VLSM for Propaganda, spoke on the serious deficiencies permitted in the komasmol political education system. In the past school year, only 68 percent of the study groups completed the required program, and the remainder have either fallen far behind or have been discontinued. The situation was particularly bad in rural komasmol organizations.

Bykalov, director of the Chita Division of the All-Union Society for the Dissemination of Political and Scientific Knowledge, reported that there are very few active and competitive members of the society in the Chita Division, particularly in rural areas and in railroad transport enterprises.
